 Vinyl Grade A: 5000mm
 Vinyl Grade B: N/A[^]

- * All Critical text and images should be placed within the yellow area.
- * Bannershop recommends that the background image should continue or bleed into the **non-visual area**. That is, the image should not stop at the **non-visual area**.
- * Eyelets should be **reduced in proportion** if they are placed on a reduced size image. E.g. If the image is reduced in 50%, the diameter of the eyelets should be: 5mm x 50% = 2.5mm.
- * If you request extra ropes or eyelets, please notify your account manager when you place order.
- * The actual size of eyelets is 25mm diameter.
- [^] We provide joining service if the width is over 3000mm

Format:

- PDF or High resolution Jpeg
- * Please setup in 1:1 scale with 150DPI
- * If you request colormatch service, supply us with high resolution PDF

Font:

All the text Must be outlined
