

## Installation Instruction of Banner A Frame

### Step 1.

Take out all the tubes and assemble them.

\* Horizontal tubes should be joined with the plastic connectors of the vertical tubes.

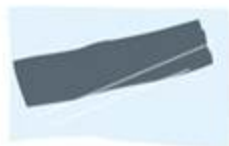

\* Lock the sides into place.

### Step 2.

Take out the banner and the velcro.

### Step 3.

Align the banner to the frame.

### Step 4.

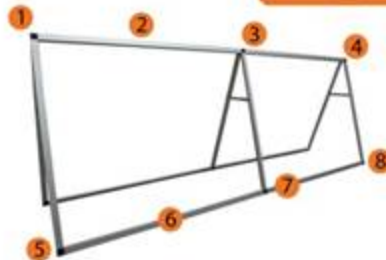

Place the velcro through the banner eyelet and around the tube.

### Step 5.

Install the banner to each of the points in sequence as shown below.

\* For the 4 corners, there should be 2 velcros. (one on the vertical tube, one on the horizontal tube)

Remark: Tightening up the velcro to ensure the banner to be straight enough.

### Step 6.

Complete
